

Oracle - 1z0-1044-21 - Oracle Cloud Platform Data Management 2021 Specialist Authoritative Latest Test Report - Doks-Kyivcity

Although purchasing Oracle 1z0-1044-21 study material not only quality of dumps but also other factors must be kept in mind .A lot of exam 1z0-1044-21 braindumps are available in market, Oracle 1z0-1044-21 Exam Topics Pdf What is more, we have free demos are freebies for your information, Normally, we will release our new version of the 1z0-1044-21 exam simulation on our website once it passed the tests, The system of our 1z0-1044-21 latest exam file is great.

While the use of graphics is supposed to make the ideas [Reliable C-S4CSC-2102 Braindumps Questions](#) presented more accessible, the use of graphics without regard to aesthetic principles has the opposite effect.

The Requirements Analysis Deliverable · Column One, You don't have to worry about time since you have other things to do, because under the guidance of our 1z0-1044-21 study tool, you only need about 20 to 30 hours to prepare for the exam.

Our company has already taken your thoughts into consideration, [Test H12-261_V3.0 Centres](#) However, although this variant works on some systems, it's not part of the C++ Standard, So, for every user of our study materials are a great opportunity, a variety of types to choose from, more and more students also choose our 1z0-1044-21 test guide, then why are you hesitating?

You bet, but the criteria for providing enough image overlap becomes **1z0-1044-21 Exam Topics Pdf** even more important, The problem is that for each of these processes or threads is that there is some amount of overhead.

Realistic 1z0-1044-21 Exam Topics Pdf | Amazing Pass Rate For 1z0-1044-21: Oracle Cloud Platform Data Management 2021 Specialist | First-Grade 1z0-1044-21 Latest Test Report

Please review the following text for details of guarantee policy: **1z0-1044-21 Exam Topics Pdf** If for any reason you do not pass your exam, Testking.com will provide you Money Back Guarantee, without any delay.

The special thing about the site is its creatively done themes along with excellent customer support, Although purchasing Oracle 1z0-1044-21 study material not only quality of dumps but also other factors must be kept in mind .A lot of exam 1z0-1044-21 braindumps are available in market.

What is more, we have free demos are freebies for your information, Normally, we will release our new version of the 1z0-1044-21 exam simulation on our website once it passed the tests.

The system of our 1z0-1044-21 latest exam file is great, We recommend a 7 day study time for the candidates for any up-coming Exams, Thanks to our diligent experts, wonderful study tools are invented for you to pass the 1z0-1044-21 exam.

Doks-Kyivcity exam prep tool is really amazing stuff which made unbelievable thing, We also provide 100% money back guarantee on 1z0-1044-21 braindumps if failed to provide promised results.

Newest 1z0-1044-21 Exam Topics Pdf - Pass 1z0-1044-21 Exam Easily

More and more people prove themselves by taking [AWS-Certified-Data-Analytics-Specialty Free](#)

[Brain Dumps](#) IT certification exam, They use their professional IT knowledge and rich experience to develop a wide range of different training plans which can help you pass Oracle certification 1z0-1044-21 exam successfully.

To everybody, time is previous and time is money, Besides, we guarantee you 100% pass for 1z0-1044-21 actual test, in case of failure, you can ask for full refund.

The complexity of the exam tests your mettle and gives you a tough challenge, Doks-Kyivcity offers you Oracle Oracle Certification 1z0-1044-21 Exam Testing Engine that provides you a number of exam-oriented tests.

The Oracle Cloud Platform Data Management 2021 Specialist practice pdf torrent can take [500-444 Latest Test Report](#) all things right for you, Oracle Certification Certification is hot among candidates, Doks-Kyivcity offers the latest Oracle Certification certification [1z0-1044-21](#) exam dumps for your preparation, it can help you pass your Oracle Certification exams easily.

You can know the exam format and part questions of our complete 1z0-1044-21 exam dumps, It is really a high efficiently exam tool that can help you save much time and energy to do other things.

By abstracting most useful content into the 1z0-1044-21 study materials, they have helped former customers gain success easily and smoothly, What kind of computer should I have?

NEW QUESTION: 1

Refer to Exhibit.

Which type of topology is represented in the exhibit?

- A. colapsed-core
- B. collapsed edge
- C. core-edge
- D. edge-core-edge

Answer: A

NEW QUESTION: 2

次の表に示すリソースを含むAzureサブスクリプションがあります。

米国東部リージョンでホストされているDB1という名前のAzure SQLデータベースを作成します。DB1に、Settings1という名前の診断設定を追加します。

Settings1はSQLInsightsをstorage1にアーカイブし、SQLInsightsをWorkspace1に送信します。次の各ステートメントについて、ステートメントがtrueの場合は[はい]を選択します。それ以外の場合は、[いいえ]を選択します。

注：それぞれの正しい選択は1ポイントの価値があります。

Answer:

Explanation:

Explanation

Box 1: No

You archive logs only to Azure Storage accounts.

Box 2: Yes

Box 3: Yes

Sending logs to Event Hubs allows you to stream data to external systems such as third-party SIEMs and other log analytics solutions.

Note: A single diagnostic setting can define no more than one of each of the destinations. If you want to send data to more than one of a particular destination type (for example, two different Log Analytics workspaces), then create multiple settings. Each resource can have up to 5 diagnostic settings.

Topic 2, Case Study B

Overview

Contoso, Ltd is a US-based finance service company that has a main office New York and an office in San Francisco.

Payment Processing Query System

Contoso hosts a business critical payment processing system in its New York data center. The system has three tiers a front-end web app a middle-tier API and a back end data store implemented as a Microsoft SQL Server

2014 database All servers run Windows Server 2012 R2.

The front-end and middle-tier components are hosted by using Microsoft Internet Information Services (IIS) The application code is written in C# and middle-tier API uses the Entity framework to communicate the SQL Server database. Maintenance of the database is performed by using SQL Server Agent- The database is currently 1 TB and is not expected to grow beyond 3 TB.

The payment processing system has the following compliance related requirement

- * Encrypt data in transit and at rest. Only the front-end and middle-tier components must be able to access the encryption keys that protect the data store.
- * Keep backups of the two separate physical locations that are at least 200 miles apart and can be restored for up to seven years.
- * Support blocking inbound and outbound traffic based on the source IP address, the destination IP address, and the port number
- * Collect Windows security logs from all the middle-tier servers and retain the log for a period of seven years,
- * Inspect inbound and outbound traffic from the front-end tier by using highly available network appliances.
- * Only allow all access to all the tiers from the internal network of Contoso.

Tape backups are configured by using an on-premises deployment of Microsoft System Center Data Protection Manager (DPM) and then shipped offsite for long term storage Historical Transaction Query System Contoso recently migrate a business-critical workload to Azure. The workload contains a .NET web server for querying the historical transaction data residing in Azure Table Storage. The .NET service is accessible from a client app that was developed in-house and on the client computer in the New York office. The data in the storage is 50 GB and is not expected to increase.

Information Security Requirement

The IT security team wants to ensure that identity management is performed by using Active Directory.

Password hashes must be stored on premises only.

Access to all business-critical systems must rely on Active Directory credentials. Any suspicious authentication attempts must trigger multi-factor authentication prompt automatically Legitimate users must be able to authenticate successfully by using multi-factor authentication.

Planned Changes

Contoso plans to implement the following changes:

- * Migrate the payment processing system to Azure.

* Migrate the historical transaction data to Azure Cosmos DB to address the performance issues.

Migration Requirements

Contoso identifies the following general migration requirements:

Infrastructure services must remain available if a region or a data center fails. Failover must occur without any administrative intervention

* Whenever possible, Azure managed services must be used to management overhead

* Whenever possible, costs must be minimized.

Contoso identifies the following requirements for the payment processing system:

* If a data center fails, ensure that the payment processing system remains available without any administrative intervention. The middle-tier and the web front end must continue to operate without any additional configurations-

* If that the number of compute nodes of the front-end and the middle tiers of the payment processing system can increase or decrease automatically based on CPU utilization.

* Ensure that each tier of the payment processing system is subject to a Service level

Agreement (SLA) of

99.99 percent availability

* Minimize the effort required to modify the middle tier API and the back-end tier of the payment processing system.

* Generate alerts when unauthorized login attempts occur on the middle-tier virtual machines.

* Ensure that the payment processing system preserves its current compliance status.

* Host the middle tier of the payment processing system on a virtual machine.

Contoso identifies the following requirements for the historical transaction query system:

* Minimize the use of on-premises infrastructure service.

* Minimize the effort required to modify the .NET web service querying Azure Cosmos DB.

* If a region fails, ensure that the historical transaction query system remains available without any administrative intervention.

Current Issue

The Contoso IT team discovers poor performance of the historical transaction query as the queries frequently cause table scans.

Information Security Requirements

The IT security team wants to ensure that identity management is performed by using Active Directory.

Password hashes must be stored on-premises only.

Access to all business-critical systems must rely on Active Directory credentials. Any suspicious authentication attempts must trigger a multi-factor authentication prompt automatically. Legitimate users must be able to authenticate successfully by using multi-factor authentication.

NEW QUESTION: 3

Refer to the exhibit.

What is the simplest way to configure routing between the regional office network 10.89.0.0/20 and the corporate network?

A. `router2(config)#ip route 0.0.0.0 0.0.0.0 10.89.16.1`

B. `router1(config)#ip route 10.89.0.0 255.255.240.0 10.89.16.1`

C. `router2(config)#ip route 10.89.3.0 255.255.0.0 10.89.16.2`

D. `router1(config)#ip route 10.89.0.0 255.255.240.0 10.89.16.2`

Answer: A

Explanation:

The next hop of the static route should be 10.89.16.1, which is the IP address for router R1 in this example. Since this router is a stub router with only a single connection to the WAN, the

simplest thing to do is to configure a single static default route back to the HQ network.

NEW QUESTION: 4

A. Option A

B. Option C

C. Option B

D. Option E

E. Option D

Answer: A,C,E
