They won't take much time to grasp all the Adobe AD5-E112 questions and you will learn all the important portions of the AD5-E112 Adobe Experience Manager Developer (Cloud Service) syllabus.

NEW QUESTION: 1

A user is having difficulty troubleshooting a Unity storage system and the service provider has been contacted for assistance. The service provider needs to run some service commands on the Storage Processors to troubleshoot the issue further.

Which step must be taken to allow the service provider remote access to the storage system?

- A.** Specify the SMTP configuration
- B.** Enable SSH on the storage system
- C.** Set the Unisphere preferences to "Optimize" for remote access
- D.** Specify the Remote Logging configuration

Answer: D

Explanation:

The Service Tasks tab provides tools to service the storage system, including repair and troubleshooting. You can use this page to collect system and configuration information for assisting your service provider with a service request. The service password is required to access the various service task operations.

The Technical Advisories tab displays up-to-date information about advisories specific to the system by referencing knowledge base articles. The Logs tab displays an audit log for system events. It also allows users to configure a remote host to which to send log information and lets users export logs into a CSV file for additional reporting purposes.

NEW QUESTION: 2

What is one difference between HPE Proactive Care and HPE Proactive Care Advanced?
