B. Open a TAC case to verify contract information and start the registration process.
C. Send a system inventory message to start the registration process.
D. Generate a fault to initiate a message that will start the registration process.
Answer: C

NEW QUESTION: 2

Answer:
Explanation:

Explanation

NEW QUESTION: 3
Two administrators Dave and Jon both manage R80 Management as administrators for ABC Corp. Jon logged into the R80 Management and then shortly after Dave logged in to the same server. They are both in the Security Policies view. From the screenshots below, why does Dave not have the rule no.6 in his SmartConsole view even though Jon has it his in his SmartConsole view?

A. Dave is currently editing rule no.6 and has deleted it from his Rule Base.
B. Dave is currently editing rule no.6 and has marked this rule for deletion.
C. Jon is currently editing rule no.6 but has not yet Published his changes.
D. Jon is currently editing rule no.6 but has Published part of his changes.
Answer: C
Explanation:
Explanation
When an administrator logs in to the Security Management Server through SmartConsole, a new editing session starts. The changes that the administrator makes during the session are only available to that administrator. Other administrators see a lock icon on object and rules that are being edited. To make changes available to all administrators, and to unlock the objects and rules that are being edited, the administrator must publish the session.

NEW QUESTION: 4
A company is building a Power Apps portal.
You need to select out-of-the-box portal types to meet the company's requirements.
Which portal types should you use? To answer, drag the appropriate portal types to the correct requirements. Each portal type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Answer:
Explanation:

Explanation:
Box 1: Partner portal
A partner portal allows every organization with resellers, distributors, suppliers, or partners to have real-time access to every stage of shared activities.
Box 2: Community portal
A community portal leverages peer-to-peer interactions between customers and experts to organically grow the catalog of available knowledge from knowledge base articles, forums, and blogs as well as providing feedback through comments and ratings.
Incorrect Answers:
Portal from blank: Create a website to share data with external and internal users. This template comes with sample pages to get you quickly started.
Customer self-service portal: A customer self-service portal enables customers to access self-service knowledge, support resources, view the progress of their cases, and provide feedback.
