NEW QUESTION: 1

- A. Option A
- B. Option D
- C. Option C
- D. Option B

Answer: B,C

NEW QUESTION: 2

Using IBM Rational Application Developer, you can rapidly import an entire Web site, change styles and apply them globally, and visually add or delete pages from a tree-structure view. Which one of the following tools would you use to perform these functions?

- A. Web Indexer Tool
- B. Web Structure Wizard
- C. Web Site Navigation Tool
- D. Web Services Interpreter

Answer: C

NEW QUESTION: 3

Which of the below is the MOST correct process to reset SIC from SmartDashboard?

- A. Click the Communication button for the firewall object, then click Reset. Run cpconfig and type a new activation key.

- B. Run cpconfig, and select Secure Internal Communication > Change One Time Password.
- C. Run cpconfig, and click Reset.
- D. Click Communication > Reset on the Gateway object, and type a new activation key.

Answer: A

NEW QUESTION: 4

Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar.

When you are finished performing all the tasks, click the 'Next' button.

Note that you cannot return to the lab once you click the 'Next' button. Scoring occurs in the background while you complete the rest of the exam.

Overview

The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

To start the lab

You may start the lab by clicking the Next button.

You need to allow RDP connections over TCP port 3389 to VM1 from the internet. The solution must prevent connections from the Internet over all other TCP ports.

What should you do from the Azure portal?

Answer:

Explanation:

See solution below.

Explanation

Step 1: Create a new network security group

Step 2: Select your new network security group.

Step 3: Select Inbound security rules, . Under Add inbound security rule, enter the following

Destination: Select Network security group, and then select the security group you created previously.

Destination port ranges: 3389

Protocol: Select TCP
