NEW QUESTION: 1
While defining yourSOA governance model, you decide to define your organization structures to define/monitor and enforce policies surrounding the enablement of your SOA initiative. After assessing your existing IT governance model, you decide that it is not appropriate for your existing organization governance model to be updated to address the needs of your SOA initiative. Therefore, you decide on which one of the following course of actions?
A. Define new SOA organization governance structures that at a minimum must include a SOA Center of Excellence, SOA Architecture Authority, and a Service Advisory Council.
B. Define like-for-like SOA organization governance structures to match your IT organization governance structures, which address only SOA concerns.
C. Define SOA organization governance structures that address the needs of your SOA initiative.The number and names of these structures are less important than the roles and responsibilities.
D. Define new SOA organization governance structures that at a minimum must include a SOA Steering Board, a SOA Center of Excellence, and a service librarian.
Answer: C
Explanation:
A key aspect of SOA Governance is the updates or creation of new governancestructures to define/monitor and enforce policies surrounding the enablement of theSOA initiative. The number and names of these structures is less important than theroles and responsibilities they encompass. The names of the structures are arbitrary asan IT steering board, IT committee, and architecture review board could all performthe duties within different enterprises.

NEW QUESTION: 2
You are a Dynamics 365 Finance developer for a company that sells pre-owned vehicles. When the company acquires a new vehicle, vehicle identification (VIN) numbers are added to the VIN field in the CustTable.
You need to create an event handler to validate that new VIN values are at least 10 characters long. Validation must occur when records are saved- Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:
Explanation:

1 - Copy the validatedWrite event handler on the CustTable table object.
2 - Copy the onModified event handler on the CustTable object
3 - Add code to perform the validation.
