### **NEW QUESTION: 2**

What type of masking strategy involves making a separate and distinct copy of data with masking in place?

- A. Dynamic
- B. Static
- C. Replication
- D. Duplication

**Answer: B**

Explanation:

With static masking, a separate and distinct copy of the data set is created with masking in place.

This is typically done through a script or other process that takes a standard data set, processes it to mask the appropriate and predefined fields, and then outputs the data set as a new one with the completed masking done.
