PVIP Original Questions & PVIP Training Online & PVIP Dumps Torrent

The PVIP exam study material have sizable quantity of the contents for your practice compiled

over past years by professional experts including essential points of the test and give you a real test environmental experiences.

We are professional at providing best and valid PVIP exam materials to help the candidates successfully pass their PVIP exams with ease as well as establish their confidence.

Facing pressure examinees should trust themselves, [DP-300 Real Torrent](#) everything will go well, If you still worry about further development in IT industry you are doing the right thing now to scan our website about PVIP certification exam prep and our good PVIP passing rate.

This is not self-determination, We own a professional team of experienced R&D group and skilled technicians, which is our trump card in developing PVIP training materials.

Our PVIP exam materials are so popular and famous in the market according to the advantages of them, With the full refund guarantee, you could also enjoy the free latest update in 1 year.

Our assiduous pursuit for high quality of our products creates our top-ranking PVIP test guide and constantly increasing sales volume, We regard the quality of our Exam Collection PVIP PDF as a life of an enterprise.

you can download any time if you are interested in our PVIP dumps torrent, If you have any questions for PVIP exam braindumps, and you can contact with us, and we will give you reply as soon as possible.

Most of the experts in our company have been studying in the professional field for many years and have accumulated much experience in our PVIP practice questions.

NEW QUESTION: 1
Your database is configured in shared server mode. However, your senior DBA asks you to modify the value of the PRIVATE_SGA limit in the profile of the users.
What could be the reason for this?
A. To limit the amount of memory to be used for the dispatcher queue of a session in SGA
B. To limit the User Global Area (UGA) memory allocated to a session from the SGA
C. To limit the amount of memory to be used for the request pool in System Global Area (SGA)
D. To control the amount of memory allocated in SGA for the local variables for each shared server process
Answer: B

NEW QUESTION: 2
Which Cisco IM and Presence service is responsible for logging all IM traffic that passes through the IM and Presence
server to an external database for IM compliance?
A. Cisco Serviceability Reporter
B. Cisco XCP Message Archiver
C. Cisco Presence Engine
D. Cisco XCP Connection Manager
E. Cisco Sync Agent
Answer: B
Explanation:
The Cisco Unified Presence XCP Message Archiver service supports the IM Compliance feature. The IM Compliance

feature logs all messages sent to and from the Cisco Unified Presence server, including point-to-point messages, and
messages from adhoc (temporary) and permanent chat rooms for the Chat feature. Messages are logged to an
external Cisco-supported database.

NEW QUESTION: 3
What is the recommended Snowflake data type to store semi-structured data like JSON?
A. LOB
B. VARIANT
C. RAW
D. VARCHAR
Answer: B

NEW QUESTION: 4
Note: This question is part of a series of questions that present the same scenario. Each question
in the series contains a unique solution that might meet the stated goals. Some question sets
might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this sections, you will NOT be able to return to it. As a result, these
questions will not appear in the review screen.
You have a data warehouse that stored sales data. One fact table has 100 million rows.
You must reduce storage needs for the data warehouse.
You need to implement a solution that uses column-based storage and provides real-time analytics for the
operational workload.
Solution: You remove all clustered indexes, sort the transactions in the table, and create a clustered index
on the table, so that the table is not a heap.
Does the solution meet the goal?
A. No
B. Yes
Answer: A
Explanation:
Explanation/Reference:
Explanation:
You should use a column-store index, not a clustered index.
Note: Columnstore indexes are the standard for storing and querying large data warehousing fact tables. It
uses column-based data storage and query processing to achieve up to 10x query performance gains in
your data warehouse over traditional row-oriented storage, and up to 10x data compression over the
uncompressed data size.
In SQL Server, rowstore refers to table where the underlying data storage format is a heap, a clustered
index, or a memory-optimized table.
