It provides complete guidance how to prepare the exam, Make [Platform-App-Builder](#) your Salesforce Certified Platform App Builder, What a good thing it is, Nowadays, the IT technology still plays an important role in the world.

Doks-Kyivcity accepts Visa, Master Card, Maestro, etc., The [CMST14 Reliable Test Blueprint](#) Company does not assume any responsibility for any actions or consequences of using these third party websites.

If you want to pass your exam and get the Platform-App-Builder certification which is crucial for you successfully, I highly recommend that you should choose the Platform-App-Builder study materials from our company so that you can get a good understanding of the exam that you are going to prepare for.

After the installation is complete, you can devote all of your time to studying Platform-App-Builder exam questions, After success payment, the customer will receive our Salesforce Platform-App-Builder dumps in 5-10 minutes through email, and open up the

attachments, you can get the Platform-App-Builder Troytec: Salesforce Certified Platform App Builder exam database which is corresponding with the test.

100% Pass Quiz Updated Platform-App-Builder - Salesforce Certified Platform App Builder Free Pdf Guide

Maybe there are no complete Platform-App-Builder study materials in our trial, but it contains the latest questions enough to let you understand the content of our Platform-App-Builder braindumps.

Mariana Sanchez, We have devoted in this field for 9 years, so we have a lot of experiences in editing Salesforce App Builder Platform-App-Builder questions and answers, There are no needs to worry about that situation because our Platform-App-Builder study materials boost high-quality and it is proved by the high passing rate and hit rate.

We provide the best privacy protection to the client and all the information of our client to buy our Platform-App-Builder test prep is strictly kept secret, Before you buy, you can [H13-331_V1.0 Training Online](#) download our free demo which contains some of questions and answers in our dumps.

How are braindumps unique, Since the skilled professionals will guide you through you practice Platform-App-Builder the exam dumps, You can buy each Salesforce Certified Platform App Builder version separately or also you can avail the bundle pack, as per your need.

They offer 100% money back guarantee on Platform-App-Builder exam dumps.

NEW QUESTION: 1

You have a SharePoint Server 2013 server farm.

You purchase an app for SharePoint from the Office Store.

You plan to deploy the app to the farm.

You need to recommend which changes must be made to the network infrastructure before you can deploy the app.

What should you recommend?

- A.** Modify the Hosts file on the front-end Web servers.
- B.** Modify the Web.config file on the front-end Web servers.
- C.** Add an alias (CNAME) record in DNS.
- D.** Add a host header in Internet Information Services (IIS).

Answer: C

Explanation:

Before you use apps for SharePoint in your environment, you have to configure your environment to support them. If

you don't configure your environment, site owners who try to install and use apps for SharePoint receive error

messages. For all apps for SharePoint, you must set up a Domain Name Services (DNS) domain name to provide a host name for the installed apps.

By using a separate domain name, apps for SharePoint are separated from SharePoint sites to prevent unauthorized

access to user data and to reduce the possibility of cross-site scripting attacks. The use of separate URLs for apps for

SharePoint and SharePoint sites is called app isolation. You also need a DNS record so that the domain name can get

correctly resolved. You can create one of two of the following types of DNS records for app for

SharePoint URLs:

* A wildcard Canonical Name (CNAME) record that points to the host domain assigned to the SharePoint farm.

* A wildcard A record that points to the IP address for the SharePoint farm.

NEW QUESTION: 2

SIMULATION

Instructions

Exam Environment

Exam Interface and Controls

The exam panel provides access to the project task(s). Each project has an associated file in which you will perform the project tasks.

1. Project file

2. Split bar

3. Exam panel

You can modify the exam interface to fit your needs in the following ways:

* To increase or decrease the exam panel font size, press Ctrl+Plus or Ctrl+Minus.

* To change the height of the exam panel, drag the split bar between the project file and the exam panel.

* To restore the interface to the default appearance, click the Restore button near the upper-right corner of the exam panel.

4. The Information bar at the top of the exam panel displays the current project and total number of projects, the remaining exam time, and the following commands:

* Collapse Panel. Minimizes the exam panel to provide more space for the project file.

* Restart Project. Closes and reopens the current project file without saving your changes.

* Submit Project. Saves your changes, submits the project file, and moves to the next project.

* Calculator. A calculator is available in some exams. You are not required to use the calculator.

* Restore. Restores the size and position of the project file and exam panel to the defaults.

* Help. Displays information about the exam interface.

5. The Content area displays the task tabs and the current task description.

6. The Navigation area at the bottom of the exam panel contains the following commands.

* Previous Task/Next Task. Saves your response and moves to the previous or next task in the current project.

* Leave feedback after exam. Flags the task to indicate that you want to leave feedback about it after the exam.

* Mark for review. Flags the task to indicate that you want to return to it before you finish the exam.

* Mark as complete. Flags the task to indicate that you feel you have completed the task.

In projects that contain multiple tasks, you can switch between tasks by clicking the task tab, Next Task button, or Previous Task button.

End of the instructions.

On the "Year-to-Date Sales" worksheet, in cells L5:L15, enter a formula that returns the average "Total Sales" for the region in cell J5 and the "Representative" in cell K5.

A. Click in Cell L5, and select Formulas from the ribbon.

Click on the arrow of the AutoSum button in the Function Library section, and select Average.

Click on Cell H4, H5, H6, then press Enter. The formula should look like

this: =AVERAGE(H4,H5,H6)

B. Click in Cell L6, and select Formulas from the ribbon.

Click on the arrow of the AutoSum button in the Function Library section, and select Average. Click on Cell H6, H5, H8, then press Enter. The formula should look like this: =AVERAGE(H4,H5,H6)

Answer: A

Explanation:

NEW QUESTION: 3

Refer to the exhibit below.

Which tab do you select to add an APIC account when adding an ACI fabric?

- A. Bare Metal Agents
- B. Managed Network Elements
- C. Multi-Domain Managers
- D. Physical Accounts

Answer: C

Explanation:

Explanation

Explanation/Reference:

https://www.cisco.com/c/en/us/td/docs/unified_computing/ucs/ucs-director/apic-management-guide/5-4/b_UCS_Step_1 On the menu bar, choose Administration > Physical Accounts.

Step 2 Click the Multi-Domain Managers tab.

Step 3 Click Add.

Step 4 In the Add Account dialog box, choose APIC from the Account Type drop-down list.

Step 5 Click Submit.

NEW QUESTION: 4

An organization has its employees' names in an Employees table, and information about their jobs in a Jobs table.

However, an organization's employees can have multiple jobs, and the same job can be performed by multiple employees. This situation would result in a many-to-many relationship between the Employees and Jobs tables. How can the many-to-many relationship issue be resolved?

- A. By modeling the many to many relationship in the business model
- B. By creating a bridge table that represents one employee doing one job, with several rows for an employee who has several jobs
- C. By creating a logical table source (LTS) that joins the Employees and Jobs tables
- D. By creating the many to many join in the physical model

Answer: B

Explanation:

Explanation/Reference:

When you need to model many-to-many relationships between dimension tables and fact tables, you can create a bridge table that resides between the fact and the dimension tables. A bridge table stores multiple records corresponding to that dimension. In the Administration Tool, General tab in the Logical Table dialog box contains a check box that you can select to specify that a table is a bridge table.

A bridge table allows you to resolve many-to-many data relationships.
