Which of the following are the types of the TextBox control?

Each correct answer represents a complete solution. Choose all that apply.

- A. Editable
- B. Calculated
- C. Bound
- D. Unbound

Answer: B,C,D

Explanation:

A TextBox control is an editable control in which a user can edit and modify data. It is of the following types:

Unbound: An unbound textbox control is an empty control. It is not bound to any column of any table. It can be bound to a column by using the ControlSource property.

Bound: A bound textbox control is bound to a column of a table. It displays a single record of the column.

Calculated: It can be used for calculations based on the expression provided in the textbox.
